

I want the LPFM stations NOT to take priority over the current FM translator service. There is little value in national or regional LPFM stations. I listen exclusively to K-LOVE FM 95.9 and 91.9 and this station has changed my life and the lives of my family. K-LOVE supports wholesome values and provides a family friendly programming that my family and community depends on. K-LOVE has a positive and encouraging impact on communities all across America. Allowing LPFM stations to take priority over current FM translator services would displace K-LOVE and cause great inconvenience to our community. K-LOVE offers a valuable, positive, encouraging radio station at a time when most stations offer foul language, sexual situations, and violent music. Additionally, K-LOVE is a listener funded station, as long as listeners support this station we should never have to worry about it being forced off the air...which is what will happen if the LPFM stations obtain priority. K-LOVE provides an opportunity for the community to reach out to others, provide support for the community by promoting adoption, positive morals and values, positive and encouraging music, commentary, and newscasts. If the K-LOVE signal is turned off in my community, we will be plunged into darkness without any alternative radio station to turn to. K-LOVE is unique in the music offered and services offered to my community. Please don't allow the last family-friendly radio option to be forced off the air...
